Top Young Economists, as of September 2026

Explanations | Ranking 5 | Ranking 10 | Ranking 15 | Ranking 20 | More

Top 200 Economists (10 years or less)

Taken from a pool of 14089 economists whose first publication of any kind is 10 or fewer years ago. These rankings consider only the youngest economists registered with RePEc. Young is defined by the year of the first publication in any form. Note that the shorter the time span considered, the more likely the ranking is going to be spurious.
