Post Ph.D. Experience

2021/09 – Present Principal / Senior Economist, Federal Reserve Board

- Division of Research and Statistics (Prices and Wages):
  - Contribute to the staff forecast of the U.S. economy, with emphasis on inflation.
  - Brief the Board of Governors on inflation and related policy issues.
  - Develop empirical models to forecast inflation over the near and medium term.
- Division of Monetary Affairs (Macro-Financial Analysis):
  - Contribute to the *Report to the FOMC on Economic Conditions and Monetary Policy* and analyze policy alternatives to inform FOMC deliberations.
  - Analyze financial market developments and their implications for the economic outlook and monetary policy.
  - Lead research on macro-financial linkages and monetary policy transmission to asset prices and the real economy.

2018/09 – 2021/09 Economist, International Monetary Fund

- Research Department (World Economic Outlook (WEO) & Macro-Financial): Contribute to analytical and conjunctural chapters, assessing global economic prospects and policies across advanced, emerging, and developing economies.
- Western Hemisphere Department (U.S. & St. Lucia Desk): Build models to forecast macroeconomic variables, draft policy memoranda on monetary and fiscal issues, and participate in Article IV consultations with government officials.
