Top Young Economists, as of August 2019

Explanations | Ranking 5 | Ranking 10 | Ranking 15 | Ranking 20 | More

Top 100 Economists (5 years or less)

Taken from a pool of 6035 economists whose first publication of any kind is 5 or fewer years ago. These rankings consider only the youngest economists registered with RePEc. Young is defined by the year of the first publication in any form. Note that the shorter the time span considered, the more likely the ranking is going to be spurious.

Rank	Year	Author	Score
1	2015	Adrien Auclert Department of Economics, Stanford University, Stanford, California (USA)	4.68
2	2015	Vanessa Simen Tchamyou African Governance and Development Institute (AGDI), Yaoundé, Cameroun	5.32
3	2015	Matthew Rognlie Department of Economics, Northwestern University, Evanston, Illinois (USA)	6.24
4	2015	Joan Monras Departament d'Economia i Empresa, Universitat Pompeu Fabra, Barcelona Graduate School of Economics (Barcelona GSE), Barcelona, Spain	9.41
5	2015	Sayef Bakari Faculté des Sciences Économiques et de Gestion, Université de Tunis El Manar, Tunis, Tunisia	12.35
6	2015	Gregory Phelan Economics Department, Williams College, Williamstown, Massachusetts (USA)	12.43
7	2016	Sharat Ganapati Economics Department, Georgetown University, Washington, District of Columbia (USA)	13.18

100	2017	Marshall I. Steinbaum Roosevelt Institute, New York City, New York (USA)	99.96

The data presented here is experimental. It is based on a limited sample of the research output in Economics and Finance. Only material catalogued in RePEc is considered. For any citation based criterion, only works that could be parsed by the CitEc project are considered. For any ranking of people, only those registered with the RePEc Author Service can be taken into account. And for rankings of institutions, only those listed in EDIRC and claimed as affiliation by the respective, registered authors can be measured. Thus, this list is by no means based on a complete sample. You can help making this more comprehensive by encouraging more publications to be listed (instructions) and more authors to register (form). For more details on the various rankings that are available as well for documentation, follow this link.

The data presented here is experimental. It is based on a limited sample of the research output in Economics and Finance. Only material catalogued in RePEc is considered. For any citation based criterion, only works that could be parsed by the CitEc project are considered. For any ranking of people, only those registered with the RePEc Author Service can be taken into account. And for rankings of institutions, only those listed in EDIRC and claimed as affiliation by the respective, registered authors can be measured. Thus, this list is by no means based on a complete sample. You can help making this more comprehensive by encouraging more publications to be listed (instructions) and more authors to register (form). For more details on the various rankings that are available as well for documentation, follow this link.

Top Young Economists, as of January 2021

Explanations | Ranking 5 | Ranking 10 | Ranking 15 | Ranking 20 | More

Top 100 Economists (5 years or less)

Taken from a pool of 4762 economists whose first publication of any kind is 5 or fewer years ago. These rankings consider only the youngest economists registered with RePEc. Young is defined by the year of the first publication in any form. Note that the shorter the time span considered, the more likely the ranking is going to be spurious.

Rank	Year	Author	Score
1	2017	Shengwu Li Department of Economics, Harvard University, Cambridge, Massachusetts (USA)	4.57
2	2017	Jeffrey T. Denning Department of Economics, Brigham Young University, Provo, Utah (USA)	7.19
3	2017	Jose Maria Barrero Departamento Académico de Administración, Instituto Tecnólogico Autónomo de México (ITAM), México, Mexico	10.05
4	2017	Michela Carlana Kennedy School of Government, Harvard University, Cambridge, Massachusetts (USA)	11.09
5	2017	Youssef Benzarti Department of Economics, University of California-Santa Barbara (UCSB), Santa Barbara, California (USA)	11.85
6	2017	Mauricio Ulate Economic Research, Federal Reserve Bank of San Francisco, San Francisco, California (USA)	12.59
7	2017	Rupal Kamdar Department of Economics, Indiana University, Bloomington, Indiana (USA)	15.05
